DETAILED ACTION

Drawings

1. Formal drawings are required in this application. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings.

Specification

2. On page 1 of the specification, the first word in line 2, "his", should be -- This --.
On pages 1 and 2, the blanks for "Serial No." should be filled in.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claim 11 is rejected under 35 U.S.C. 102(b) as being anticipated by O'Hara et al.
O'Hara et al teaches a method of performing circuit tests comprising: observing an output of a chopper circuit external to the circuit (col. 12, lines 8-10 & 47-51) and controlling the offset of the chopper circuit (col. 5, lines 16-19).

Allowable Subject Matter

5. Claims 1-9 and 14-17 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: The prior art of record does not teach a method of testing a circuit by applying an offset to a chopper circuit and confirming whether the chopper output is within a predetermined offset specification.

6. Claims 12 and 13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

7. Applicant's arguments with respect to claim 11 have been considered but is moot in view of the new ground(s) of rejection.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 2857

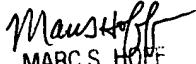

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
